Felthorpe Speed Limits Traffic Regulation Order (TRO)

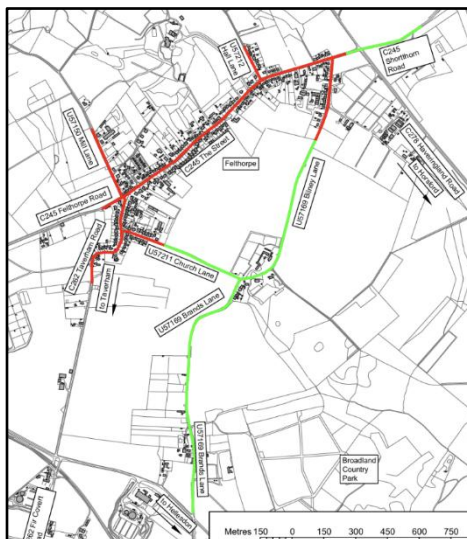

Felthorpe Speed Limits Traffic Regulation Order (TRO)

Upgrade your Septic Tank for Free
-via the National Rivers Consortium

Felthorpe Issues:

FREE: Upgrade your Septic Tank for Free

If you live in one of the affected areas in Norfolk, the National Rivers Consortium can replace your system with a new high performing GRAF Sewage Treatment Plant for FREE. Replacement will reduce the levels of harmful nutrients from reaching our rivers.

Preliminary Consultation

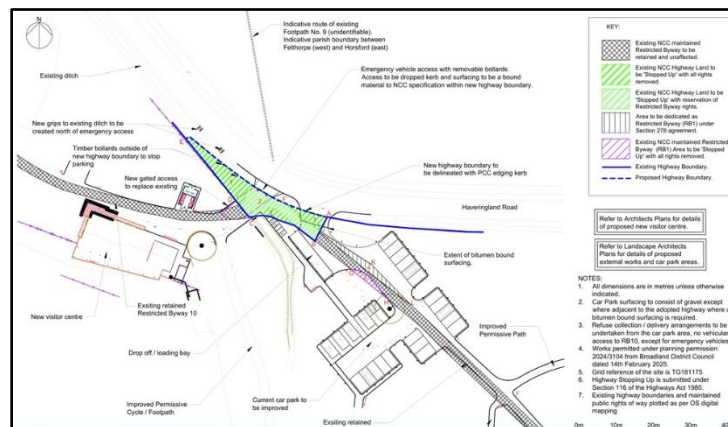

The Parish Council is pleased to confirm that despite the plans for the Western link road being put on hold the traffic mitigation that had been promised to the parish of Felthorpe as part of the scheme may still go ahead.

Norfolk County Council is proposing changes to existing speed limits within Felthorpe.

The plans PJA126- ID-003 show the extents of the speed limits being proposed. The next stage in the process will be the advertisement period for the associated Traffic Regulation Orders.

Consultation for the Stopping Up of Haveringland Road

The stopping up of the highway land on Haveringland Road will allow for the entrance to the new Broadland Visitor Centre car park to be sensitively landscaped and will help prevent informal parking by relocating vehicles to a purpose-built car park.

Join your Parish Council

Join the Parish Council. We have a vacancy for a parish councillor.

Focus on Felthorpe: Jon and Sharon Dack, School Garage

Jon was born in Felthorpe and Sharon moved here in the early 1980s.

The Garage was established in 1980 by Tim and Mary Bishop and quickly became well known in the area for its excellent service and used light commercial sales .

Jon Dack joined School Garage in 1987 to wash the vans etc as a Saturday job and started his apprenticeship in 1988.

The following year the Bishops invested in a comprehensive MOT bay and appointed

workshops. The garage provided full maintenance facilities and built an excellent reputation for service and high standards of workmanship .

Jon gained his City and Guilds certificate became one of the youngest MOT testers in the country in September 1991. Jon and Sharon married in 1996 and moved from their home in Thorpe Marriott to Felthorpe in 2004. They have two children.

Jon and Sharon bought the business in 2006 and invested in the latest diagnostic and garage equipment. They continue to employ five talented and hard working local people. The Garage specializes in MOTs and repairs on cars, light commercial vehicles and minibuses. They also offer MOTs for motorcycles, servicing, computerised 4 wheel alignment, tyres, batteries and aircon services.

Jon and Sharon and all their staff are proud of their business and are committed to their loyal customers and look forward to welcoming new customers.

Big Broadland Litter Pick-

The annual Felthorpe litter pick took place on Sunday 27th April 2025.

Thank you to all the residents who joined our recent litter pick. 20 bags of waste were collected from around our parish. The rubbish included a number of bottles and cans and bizarrely three discarded supermarket-labelled chickens!
